

Bax Engineering Company Introduction

Bax Engineering Company, established in 1981 specializes in civil engineering, land planning and surveying for private and public entities. Bax Engineering's in-house resources include over 30 years of project files as well as the survey records of two previous St. Charles County firms. These two firms, St. Charles County Engineering acquired by Bax in 1981, and Kerr Surveying Company of Wentzville acquired by Bax in 1987 provide an extensive basis of records, plats, and surveys from which Bax Engineering grew.

Through this growth, the focus of Bax Engineering has always been to provide the highest quality service, quality in design and survey, as well as a high level of response to our clients. As a way to implement such service, departments were established within the framework of the firm based on particular areas of expertise. Services provided within these departments are:

- Land Planning
- Land Surveying
- Civil Engineering
 - Commercial
 - Residential
- Construction Surveying
- Construction Monitoring
- 3D Scanning/High Definition Surveying
- Drone Aerial Topographic Survey
